

## Type of course – Applied General

### Course Overview

There are two units each year. The first year consists of two exam units; unit 1 and unit 2. The second year includes two coursework units; unit 5 and unit 14.

### Course Content

**Unit 1:** Human Lifespan Development (External)

**Unit 2:** Working in Health and Social Care (External)

**Unit 5:** Meeting Individual Care and Support Needs (Internal)

**Unit 14:** Physiological Disorders and their Care (Internal)

### Assessment

Coursework and external examinations. Learners may have one resit of an external assessment to obtain either a pass or to seek to gain a merit or distinction. If a learner has two attempts then the better result will be used for qualification grading.

### Entry Requirements

Grade 5 in English language

At least a Merit in Health and Social Care at Level 2 if taken

### Careers and Opportunities for Further Study

Health and Social Care will provide learners with the skills, knowledge and understanding to progress into Higher Education on a Health and Social Care related course.
